# Forward-Looking Statements

Allot Communications Ltd. has filed a registration statement (including a base prospectus and a preliminary prospectus supplement) with the SEC for the offering to which this communication relates. Before you invest, you should read the base prospectus and the preliminary prospectus supplement in that registration statement and other documents Allot Communications Ltd. has filed with the SEC for more complete information about Allot Communications Ltd. and this offering. You may get these documents for free by visiting EDGAR on the SEC website at [www.sec.gov](http://www.sec.gov). Alternatively, a copy of the prospectus supplement and base prospectus relating to the offering may be obtained by contacting: BofA Merrill Lynch, 4 World Financial Center, New York, NY 10080, Attn: Prospectus Department or e-mail [dg.prospectus\\_requests@baml.com](mailto:dg.prospectus_requests@baml.com).

This presentation may include forward looking statements based on current expectations and assumptions about the business. These expectations and assumptions are subject to risks and uncertainties. Our actual results could differ materially because of factors we may discuss today, and those described under “Risk Factors” in the preliminary Prospectus Supplement and in other reports and filings with the Securities and Exchange Commission. We do not undertake any duty to update any forward looking statements. All figures contained in this presentation are non-GAAP, unaudited figures.

The trademarks included herein are the property of the owners thereof and are used for reference purposes only. Such use should not be construed as an endorsement of the products of Allot Communications Ltd. or this offering. Neither the Company, nor any of its respective agents, employees or advisors intend or have any duty or obligation to supplement, amend, update or revise any of the forward-looking statements contained in this presentation.

# AGENDA

1. Company overview
2. The role of the service provider is changing
3. The demand side
4. Market trends and growth potential
5. Solutions and products
6. Financials

# Trends and Growth Potential

# Market Evolution

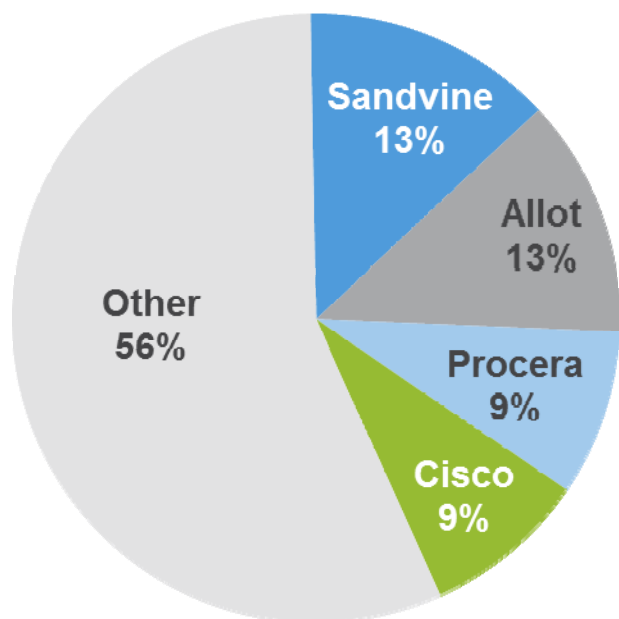

# DPI Market Projection by Infonetics

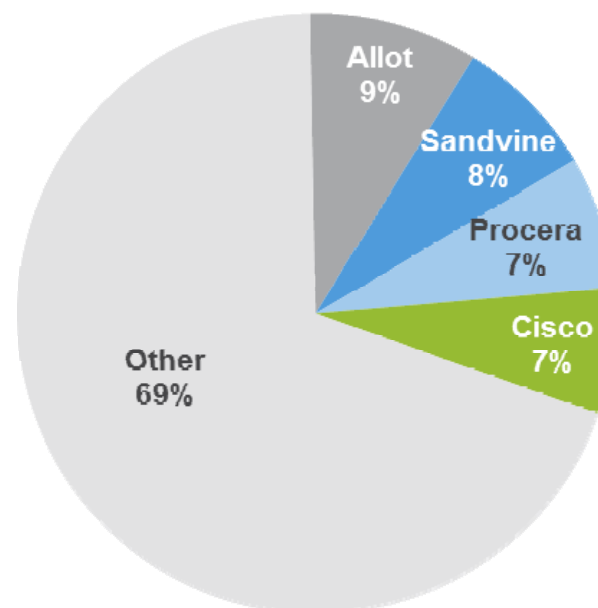

Source: Infonetics H2/2014 Service Provider DPI Report

# Allot's Leadership in Mobile

2H14 Worldwide Total Standalone  
DPI Revenue Market Share

2H14 Worldwide Standalone DPI  
Wireless Revenue Market Share

Infonetics H2/2014  
Service Provider DPI Report:

- Operator spending on DPI reached \$825M in 2014, expected to reach close to \$2B by 2019 (YoY increase of 19.7%)
- Sandvine and Allot are neck-and-neck in the DPI market share lead, followed by Cisco and Procera

# Allot's Leadership

Infonetics' H2/2014 Service Provider DPI Report:

- "The focus of the DPI market is shifting toward video optimization, granular charging, network security and content connectivity"

Gartner's "2015 Cool Vendors in CSP Infrastructure" report referenced Allot as a DPI market leader who acquired Optenet

- "We identified Optenet as cool because it has deployments at major Tier-1 CSPs offering security as a service (SECaaS), leveraging deep packet inspection (DPI) technologies with cloud-based algorithms for things such as parental control of content"

Frost & Sullivan's "DDoS Mitigation Global Market Analysis" Report (11/2015):

- "Allot Communications provides highly scalable, inline, automated DDoS mitigation appliances. The ServiceProtector offering runs on the company's Allot Service Gateway platform or Allot NetEnforcer and uses deep packet inspection to identify attack patterns and create mitigation signatures in real time"

**Solutions – focusing on  
security solutions for  
mobile service providers**

# Comprehensive Platform Offering

Target Markets	Enterprise						
	Tier 2-3 Service Provider						
	Tier 1 Service Provider						
	Platform	AC-500	AC-1400	AC-3000	AC-6000	SG-Sigma E6	SG-Sigma E14
Interfaces	4x100BaseT	8x1GE	8x1GE	8x1GE 8x10GE/1GE (dual mode)	8x10GE 32x1GE	16x10GE 32x1GE	8x100GE 96x10GE
Speed	400 Mbps	2 Gbps	8 Gbps	16 Gbps (8 Gbps, full duplex)	64 Gbps	160 Gbps	500 Gbps
Subscribers	32,000	160,000	160,000	400,000	3.2M	8M	15M
Apps	AOS Software						

# Products & Solutions Deliver Value

- 100GE/10GE Connectivity
- 500 Gbps/Platform
- 2 Tbps/Cluster
- Managing 15M Subscribers/Platform

## Value-Added Services:

**Analytics**

**Application Based Charging**

**Cloud Multi-Tenancy**

**Traffic Management**

**Large Scale DDoS Protection**

**Regulations Compliance**

**Video Services**

**Anti-Malware**

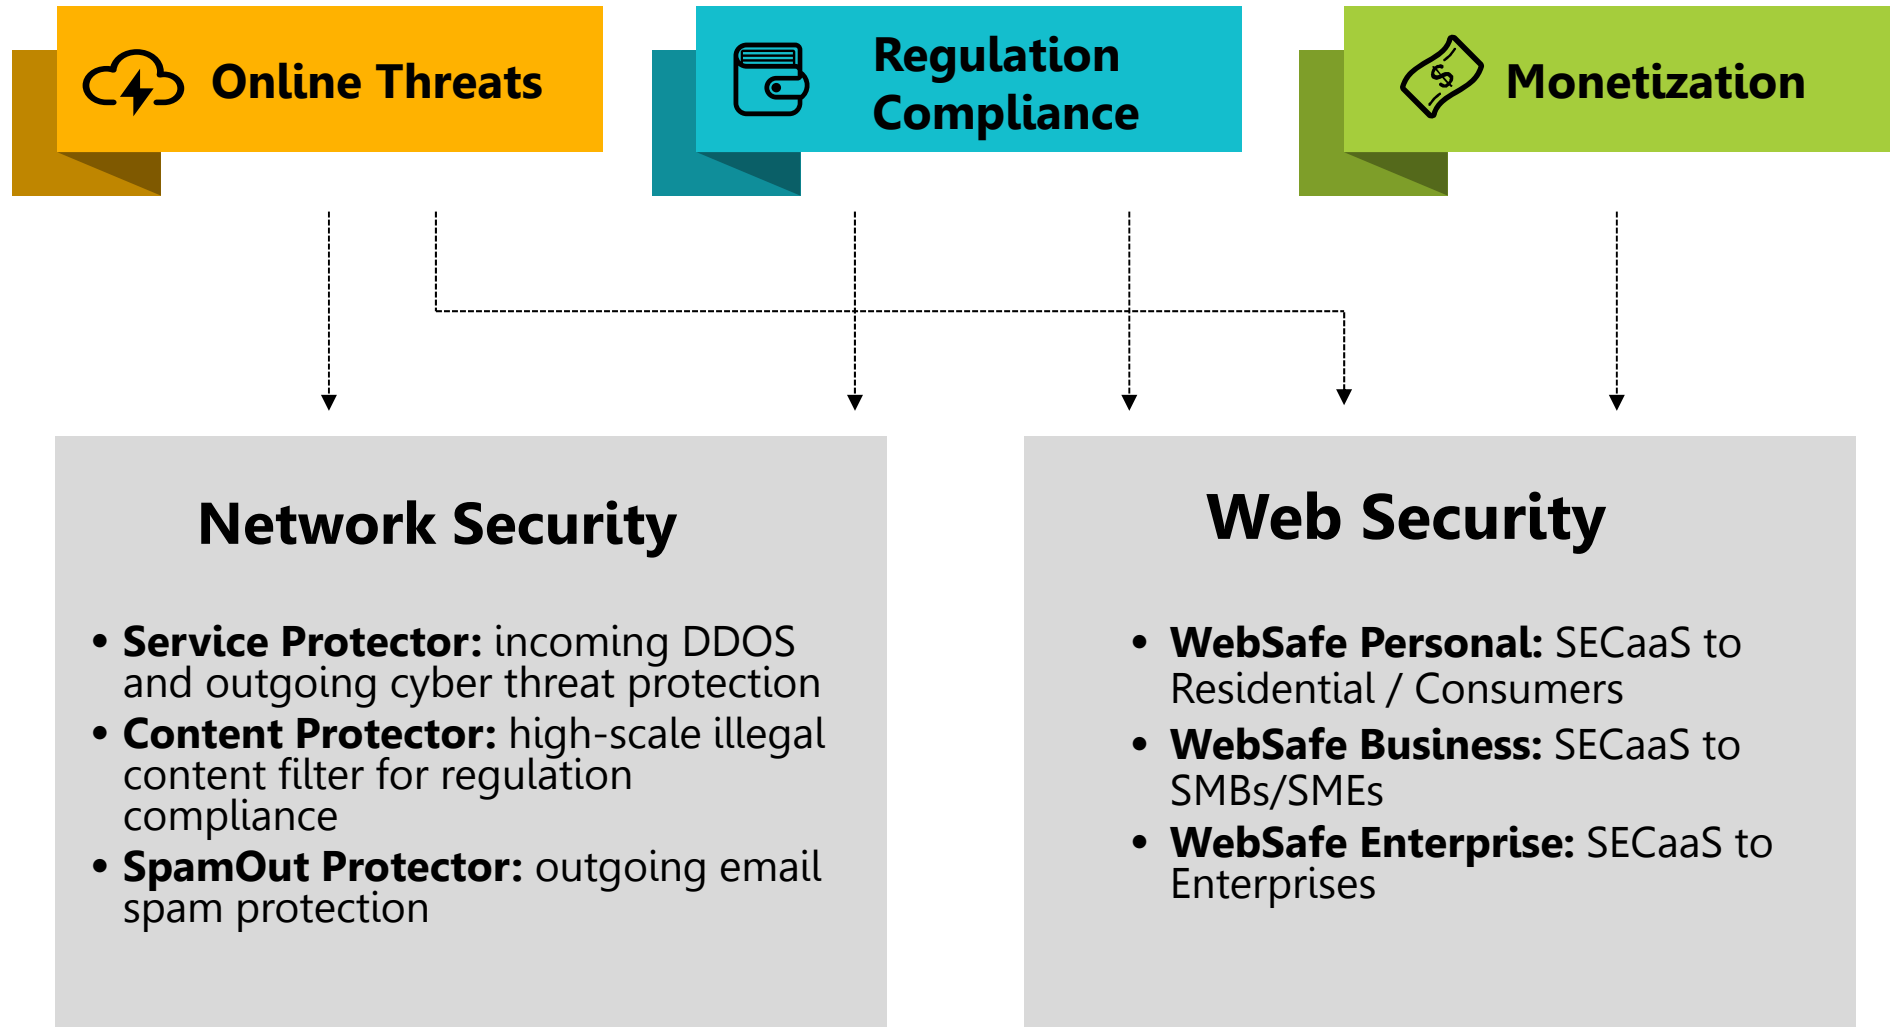

**Parental Control**

**Customer Engagement**

# Security Portfolio

# The Case for Web Security as a Service

## The value to the end user

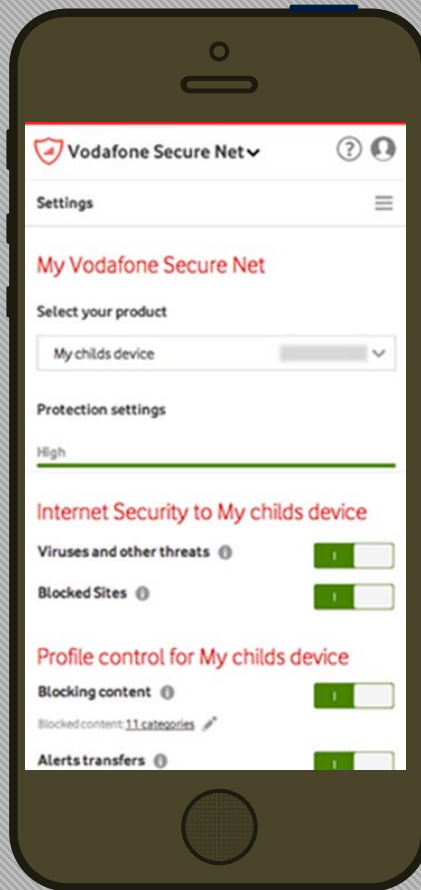

Easy to set-up, easy to operate, brings value

## The value to the operator

- Incremental revenue
- Improved loyalty
- Better positioning for the operator

# Case Study: Vodafone Germany

## The Challenge:

- Provide a simple, accessible and effective value added service to protect all users regardless of device from internet threats and harmful content

## The Allot Solution:

- Allot WebSafe Family as a fully integrated service in the Allot Service Gateway to deliver SECaaS to consumers and businesses

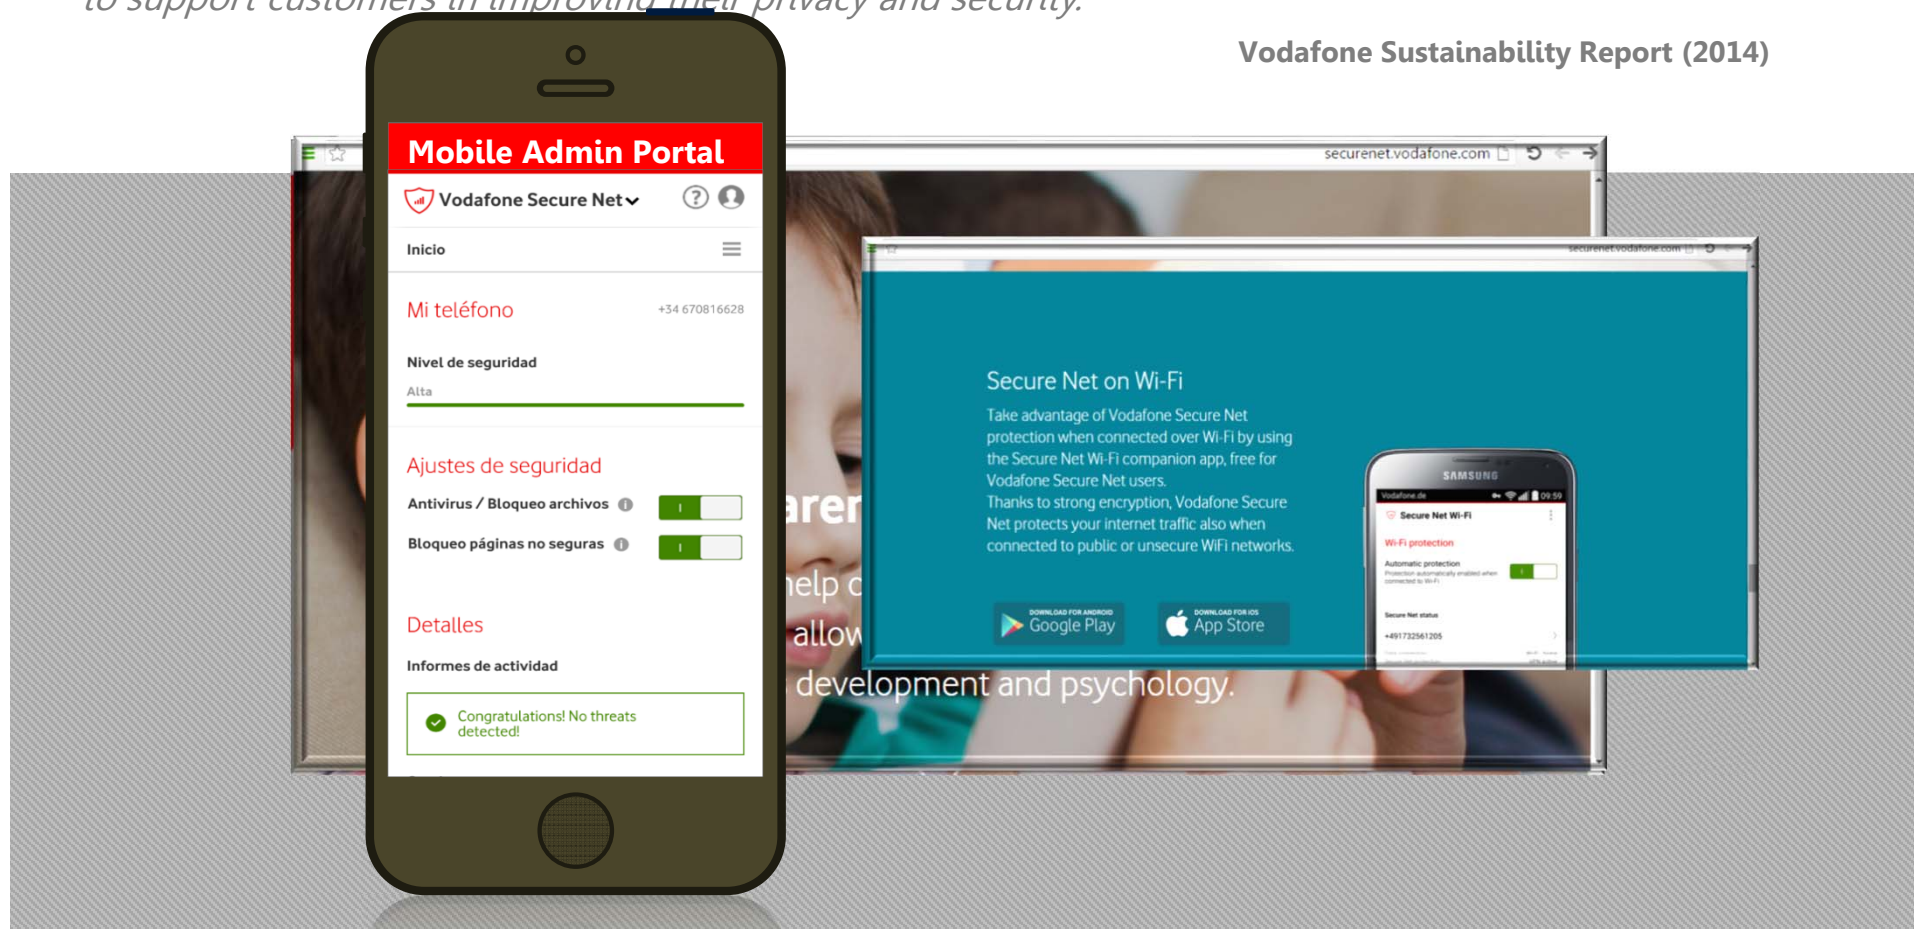

## The Benefits:

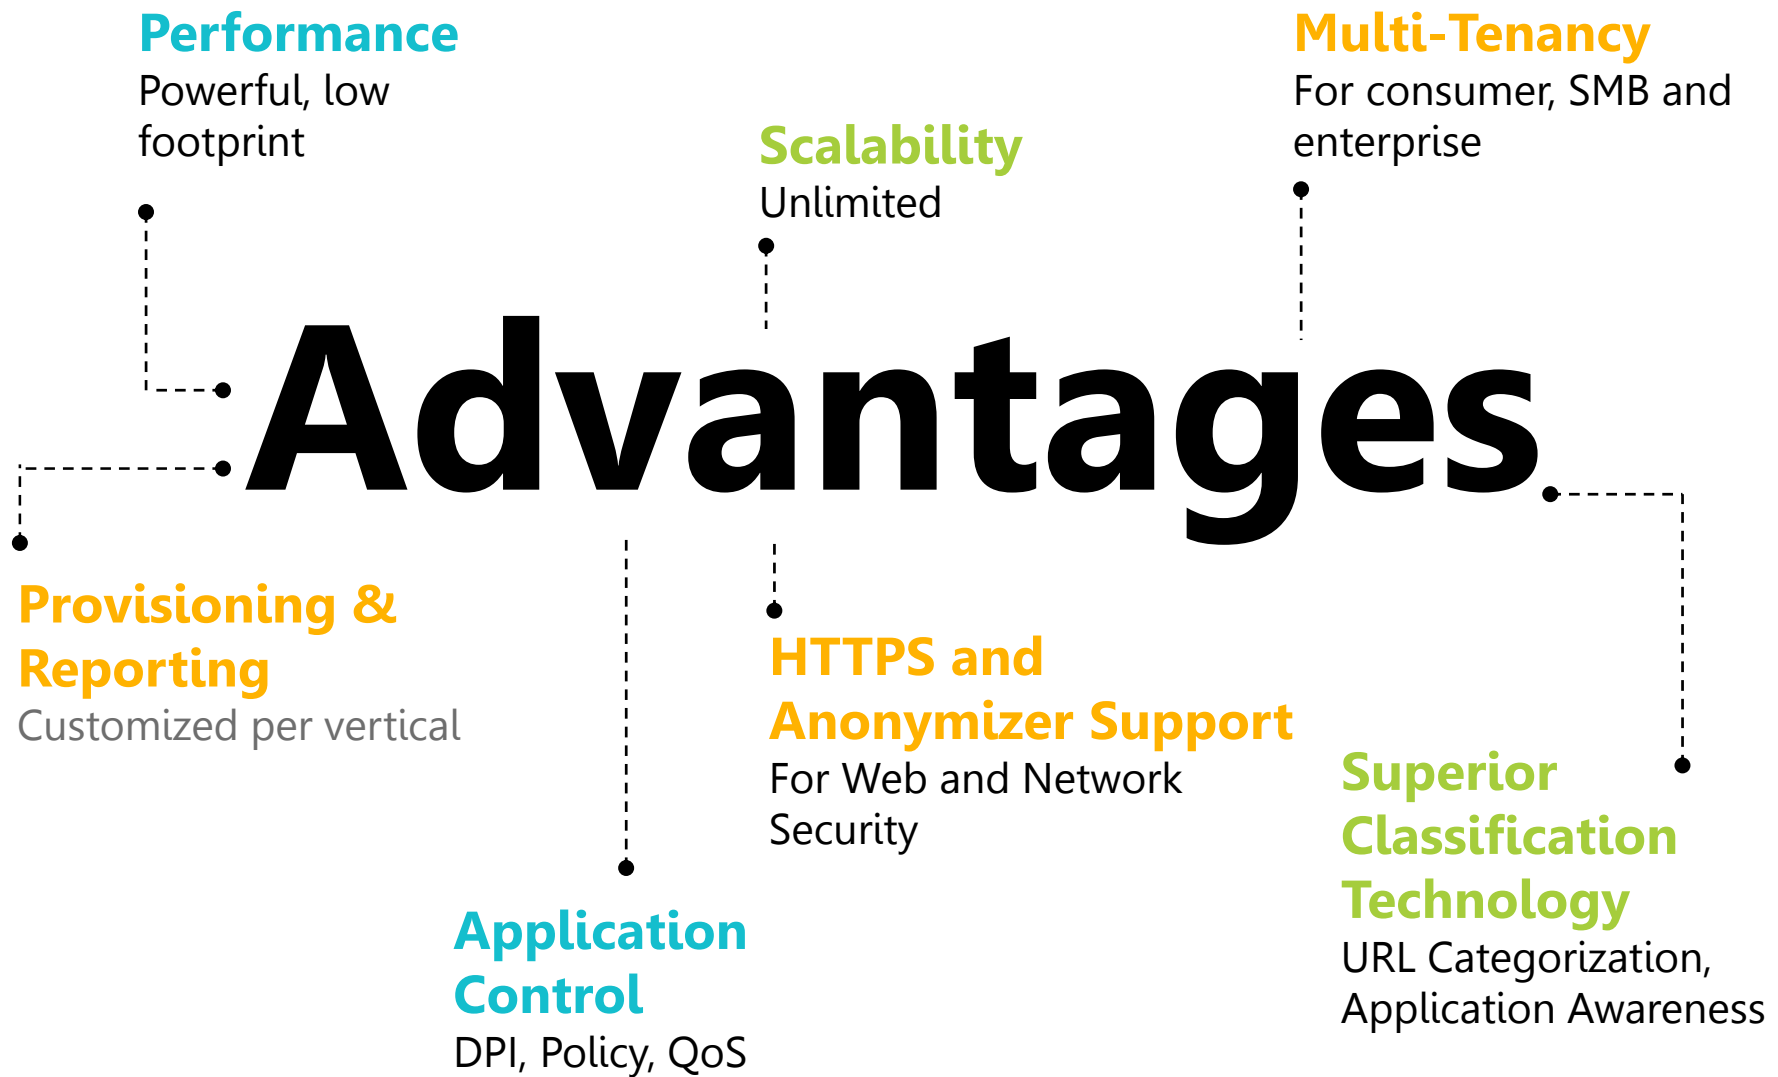

- Differentiate Vodafone with security services that are accessible to all
- Generate new revenue streams from SECaaS
- Enhance brand image and customer loyalty with useful and desirable services

# Vodafone Secure Net <https://securenet.vodafone.com/>

*“Privacy and security can pose risks to our customers and our business, but we also see potential to differentiate our brand not just by managing these risks but by offering products and services designed to support customers in improving their privacy and security.”*

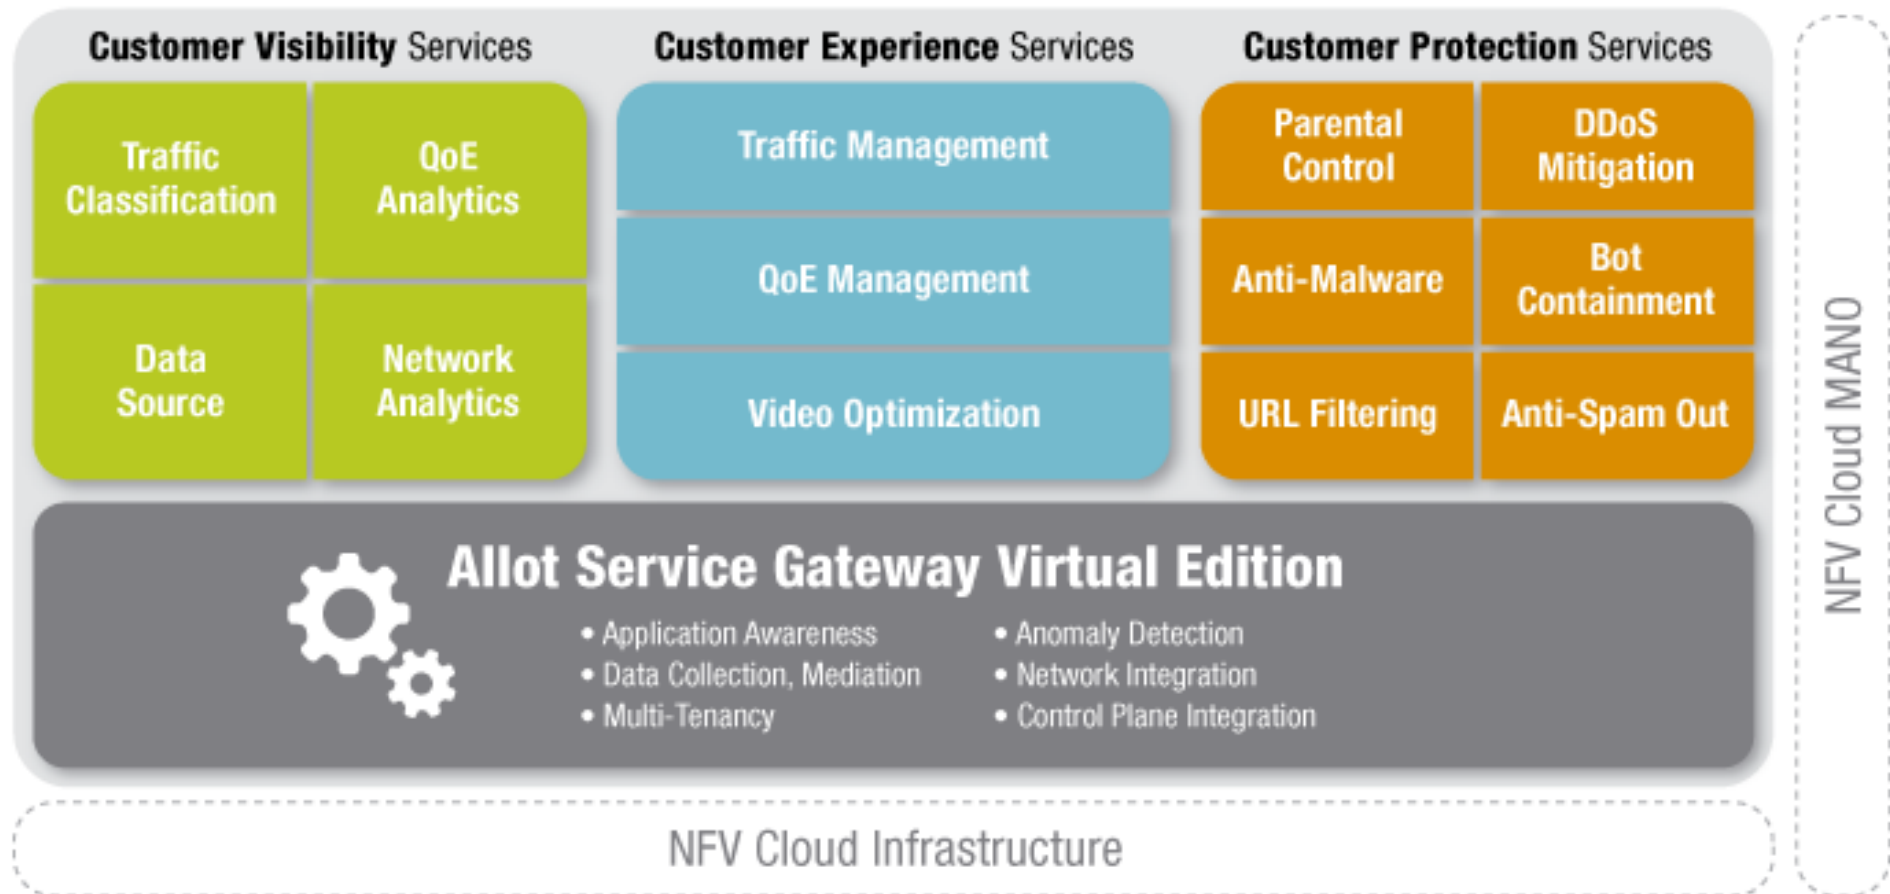

Vodafone Sustainability Report (2014)

# Allot NFV Strategy: Pre-Integrated Services

## Allot VNFs – Virtualized Services

# NFV Goal: Accelerate Time to Launch & Revenue

Allot's **pre-integrated virtualized service** in a comprehensive Virtual Network Function accelerates time-to-revenue

## Service Deployment

Level of pre-integration

# Investment Summary

- Allot's innovative security and monetization portfolio help mobile service providers to increase ARPU and reduce churn.
- The security segment includes anti-malware, anti-spam, anti-DDoS and PC solutions. This segment is the most dominant within Allot's VAS category.
- During Q3 2015, booking continued to recover sequentially.
- Market Opportunities include offering security and monetization solutions for mobile service providers.
