## **Allot Communications Speaking and Showcasing Security Solutions at Upcoming U.S. Events**

### **Allot CTO presenting at the Gartner Security & Risk Management Summit and Light Reading's Big Telecom Event**

HOD HASHARON, Israel, June 9, 2015 /PRNewswire/ --

[Allot Communications Ltd.](#) (NASDAQ, TASE: ALLT), a leading global provider of intelligent broadband solutions that empower communication service providers to optimize and monetize their networks, enterprises to enhance productivity and consumers to improve their digital lifestyle, will be in attendance at two conferences this week, including the Gartner Security & Risk Management Summit taking place June 8-11 at National Harbor, MD and Light Reading's Big Telecom Event (BTE 2015) from June 9-10 in Chicago, IL.

Allot CTO & VP Jay Klein is speaking at both events. Mr. Klein discusses emerging online threats and the significance of application visibility and control for mitigating these threats at the Gartner event. He will also participate in a panel discussion at Light Reading's event about the state of today's network security in combating advanced persistent threats. Klein and other Allot executives will also be on site to discuss the security insights revealed in the latest [Allot CloudTrends Report Q2/2015](#) concerning the threat of malicious traffic and through employees' usage of social networking, file sharing, instant messaging and anonymizers within the enterprise.

Additionally at the Big Telecom Event, Allot showcases its world-class [Service Gateway](#) solution and add-on capabilities, built to power the deployment and delivery of digital services in fixed, mobile and cloud networks, including demoing [Allot Websafe Personal](#), a carrier-class Web security service that enables service providers and enterprises to deliver a safer Internet environment to their users. Allot Websafe Personal was [recently implemented by Vodafone Germany](#) to power its newly launched Secure Net offering for mobile users, enabling the company to rapidly roll out value-added web security services including anti-malware and parental control that increase customer loyalty and generate incremental revenue.

### **Forward Looking Statement**

This release may contain forward-looking statements, which express the current beliefs and expectations of Company management. Such statements involve a number of known and unknown risks and uncertainties that could cause our future results, performance or achievements to differ significantly from the results, performance or achievements expressed or implied by such forward-looking statements. Important factors that could cause or contribute to such differences include risks relating to: our ability to compete successfully with other companies offering competing technologies; the loss of one or more significant customers; consolidation of, and strategic alliances by, our competitors, government regulation; lower demand for key value-added services; our ability to keep pace with advances in technology and to add new features and value-added services; managing lengthy sales cycles; operational risks associated with large projects; our dependence on third party channel partners for a material portion of our revenues; and other factors discussed under the heading "Risk Factors" in the Company's annual report on Form 20-F filed with the Securities and Exchange Commission. Forward-looking statements in this release are made pursuant to the safe harbor provisions contained in the Private Securities Litigation Reform Act of 1995. These forward-looking statements are made only as of the date hereof, and the company undertakes no obligation to update or revise the forward-looking statements, whether as a result of new information, future events or otherwise.
