Management Comment

Erez Antebi, President & CEO of Allot, commented: "We are very pleased with our performance in the second quarter and are confident we are on our way to achieve the goals we set for 2021. The revolution of shifting cybersecurity responsibility from the individual to the CSP is growing worldwide and gaining momentum. This is evidenced by growth in several directions: In the number of CSPs that are engaging with us; in the number of operators that contract with us; and in the number of consumers signing up for cybersecurity protection once the operator launches the service. I am very proud that Allot is the technology company leading this revolution."
