

# Revolutionizing Consumer Cybersecurity

—  
August 2024

(NASDAQ & TASE: ALLT)

# Forward Looking Statements

---

This presentation contains forward-looking statements, which express the current beliefs and expectations of Company management. Such statements involve a number of known and unknown risks and uncertainties that could cause our future results, performance or achievements to differ significantly from the results, performance or achievements set forth in such forward-looking statements. Important factors that could cause or contribute to such differences include risks relating to: our ability to compete successfully with other companies offering competing technologies; the loss of one or more significant customers; the impact of government regulation on demand for our products; our failure to increase the functionality and features of our products; our ability to keep pace with advances in technology and to add new features and value-added services; the failure of our products adversely impacting customers' networks; managing lengthy sales cycles; greater operational risk associated with large projects; our dependence on third party channel partners for a material portion of our revenues; our failure to comply with regulatory requirements; our dependence on traffic management systems and network management application suites for the substantial majority of our revenues; the loss of rights to use third-party solutions integrated into our products; undetected errors in our products; our dependence on a single third-party subcontractor for a significant portion of our products; and other factors discussed under the heading "Risk Factors" in the Company's annual report on Form 20-F filed with the Securities and Exchange Commission. Forward-looking statements in this release are made pursuant to the safe harbor provisions contained in the Private Securities Litigation Reform Act of 1995. These forward-looking statements are made only as of the date hereof, and the Company undertakes no obligation to update or revise the forward-looking statements, whether as a result of new information, future events or otherwise.

# Allot Overview

## MARKET

Communication Service Providers (CSPs)

## CUSTOMER BASE

- Hundreds of CSPs globally
- Tier-1 operators

## COMPANY HIGHLIGHTS

- ALLT (NASDAQ, TASE)
- 2023 revenue: \$93M

## PROVEN MANAGEMENT TEAM

Decades of experience in CSPs and Cybersecurity

allot

# Allot Smart Technology Heritage

- Deployed at hundreds of CSPs worldwide
- Telco grade solutions
- Nationwide deployments
- On-prem, virtual, cloud native
- Powered by AI/ML

# Allot Secure CSP Customers

Many millions of global subscribers protected  
Tier-1 operators trust Allot

# The Consumer & SMB Cybersecurity Challenge

# Consumer & SMB Cyberthreats Exponentially Growing

- Border between office and work has blurred
- COVID accelerated this change
- 5G will accelerate it further

Increase of Allot Blocked Phishing Attacks in Europe H2 2022-H1 2023

Source: AV-Test - [Malware Statistics & Trends Report](#) | AV-TEST, April 5, 2022

# Security Apps Don't Protect the Mass Market

Consumers don't want to implement security apps on all their devices

Up to 5% of consumers actually download security apps

Security apps do not solve the problem

Consumers and SMBs cannot be their Own CISO!

\* Based on conversations with CSPs

The opportunity for telecom providers to offer a simple, clear package of cybersecurity protections for homes and families appears significant

TAG Cyber, March 2022

# The Opportunity

# Consumers are Aware of Threats and Expect CSPs to Provide Solutions

**70%** of consumers expect the CSP to provide a security solution to protect them from malware attacks

---

**68%** of US consumers worry about being a victim of identity theft

---

**63%** of US consumers worry about unauthorized access into their bank accounts

---

Based on survey of 8,000 global participants in Consumer Security Survey, conducted by Coleman Parkes Research, London, January 2022

# US Consumers are Willing to Pay to be Protected

## MOBILE USERS

**90%** of US consumers are willing to pay for a security application that protects all their mobile devices

---

**63%** minimum of \$2 a month

**38%** minimum of \$4 a month

## FIXED BROADBAND USERS

**93%** Of US consumers are willing to pay for a security application that protects their broadband connections

---

**76%** excess of \$3 a month

**46%** excess of \$5 a month

Based on survey of 4,000 global participants in Consumer Security Survey, conducted by Coleman Parkes Research, London, April 2020

# CSPs Well Positioned to Provide Security Services

Sole provider of access to the network.

Capable of blocking attacks before they reach the customer

Multiple touch points with customers:  
trusted brand, billing,  
frequent interactions

# Network-Based Cybersecurity is the “Next Big Differentiator” for CSPs

Coverage, Speed, Quality  
are commoditized

Value #1

Brand  
recognition

Value #2

New  
revenues

Value #3

Churn  
reduction

# The Allot Secure Solution

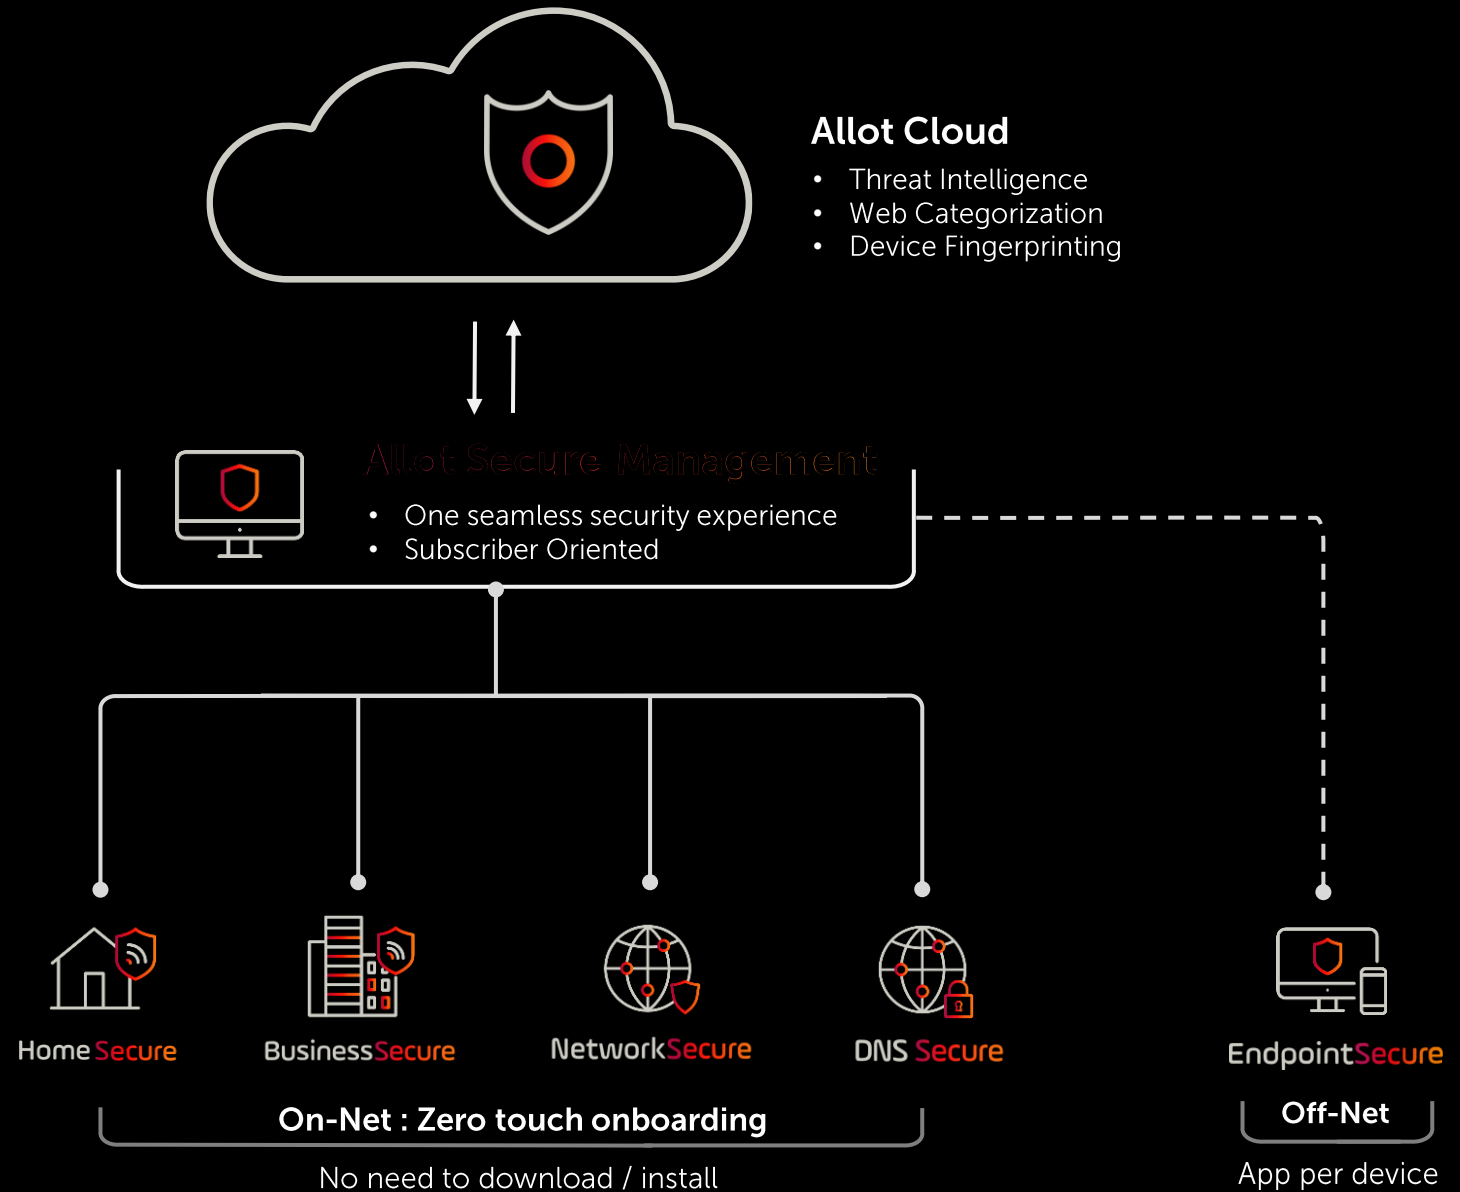

# Allot Secure

Protecting consumers from threats/crime on the network

- Any threat
- Anywhere
- Any device

# Allot Secure 360

The only company to offer a full unified "security blanket"

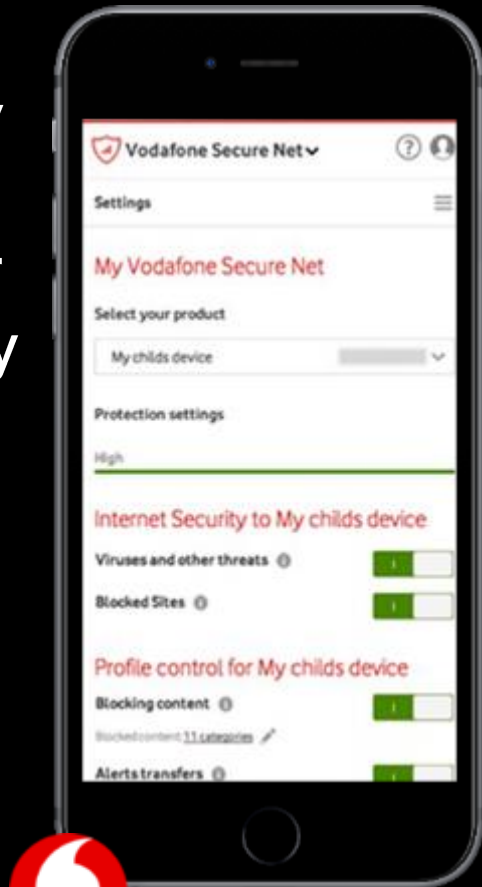

# The Economics

Customers willing to pay 5% to 20% of price plan for Cybersecurity

Consumer

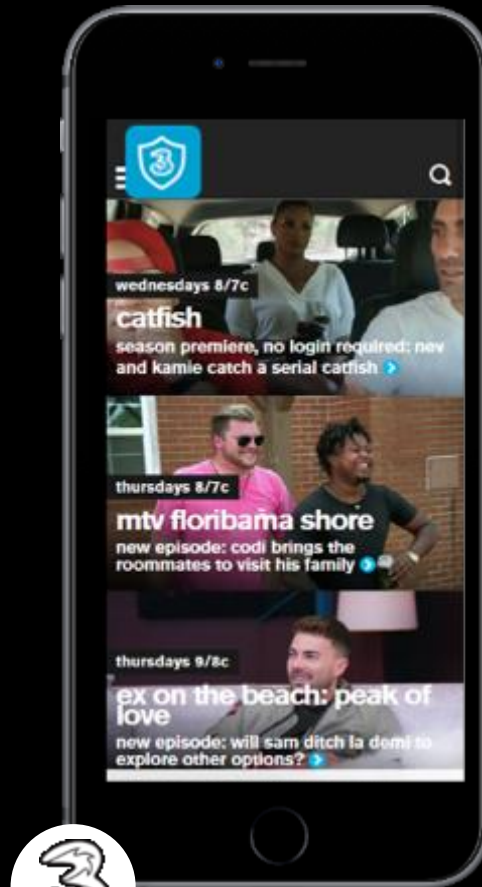

SMB

0.99€/m

~5% of average price plan

"...Vodafone Secure Net is a unique service that protects you simply and safely on your Vodafone connected devices."

1.5€/m

~8% of average price plan

"...The Drei Internet Protection protects Drei customers regardless of device..."

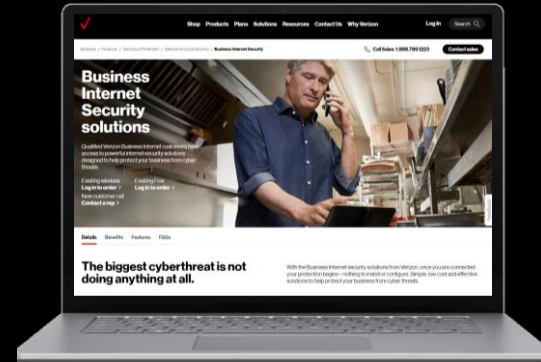

Telefonica SMB

10€/m

~20% of average price plan

"...Browse with complete peace of mind and configure the service according to your business needs"

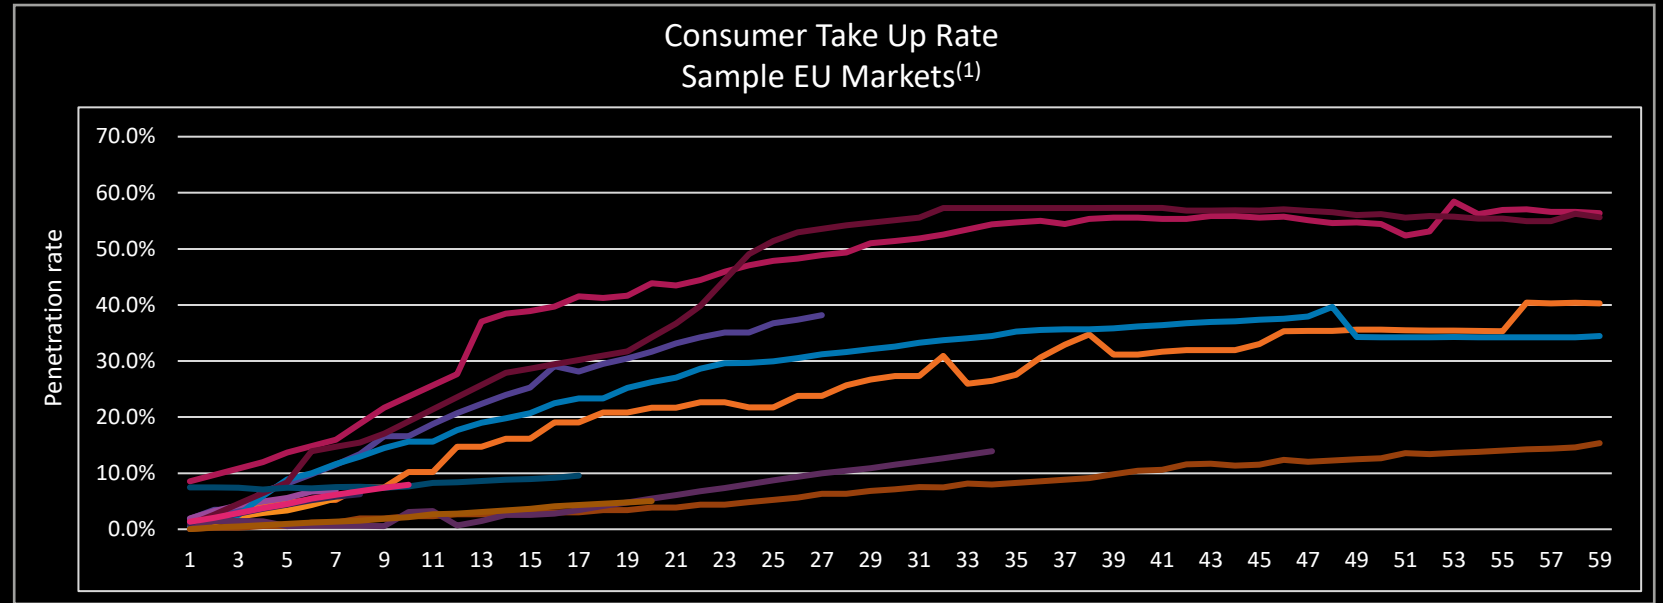

\$10-20/m

Two price plans

"...nothing to install or configure. Simple, low cost and effective solutions to help protect your business from cyber threats"

# Extraordinary Take Up Rate by Consumers & SMBs\*

\* Examples of existing customers  
<sup>(1)</sup> Data from several Tier 1 CSPs in EU  
<sup>(2)</sup> Data from a Tier 1 CSP in EU  
 \* Figures out of the TAM

We are facing attach rates of up to 80% of new customers.

**Martin Westhoff**  
Strategy and Marketing Home  
at Hutchison Drei Osterreich

Simple on-boarding provides a key factor as customers are happy to receive immediate protection with no hassle. Allot contributes to a higher NPS and boost to our brand.

**Jason King**  
Telenor Bulgaria CEO

We see the huge potential of Telefónica to achieve very high penetration rates with this type of service.

**Jose Luis Gilperez**  
Executive Director Public Administrations, Defense  
and Security, Telefónica España

This offering paves the way for a network-based security portfolio that will simplify the customer experience and help provide peace of mind in today's ever evolving cybersecurity landscape

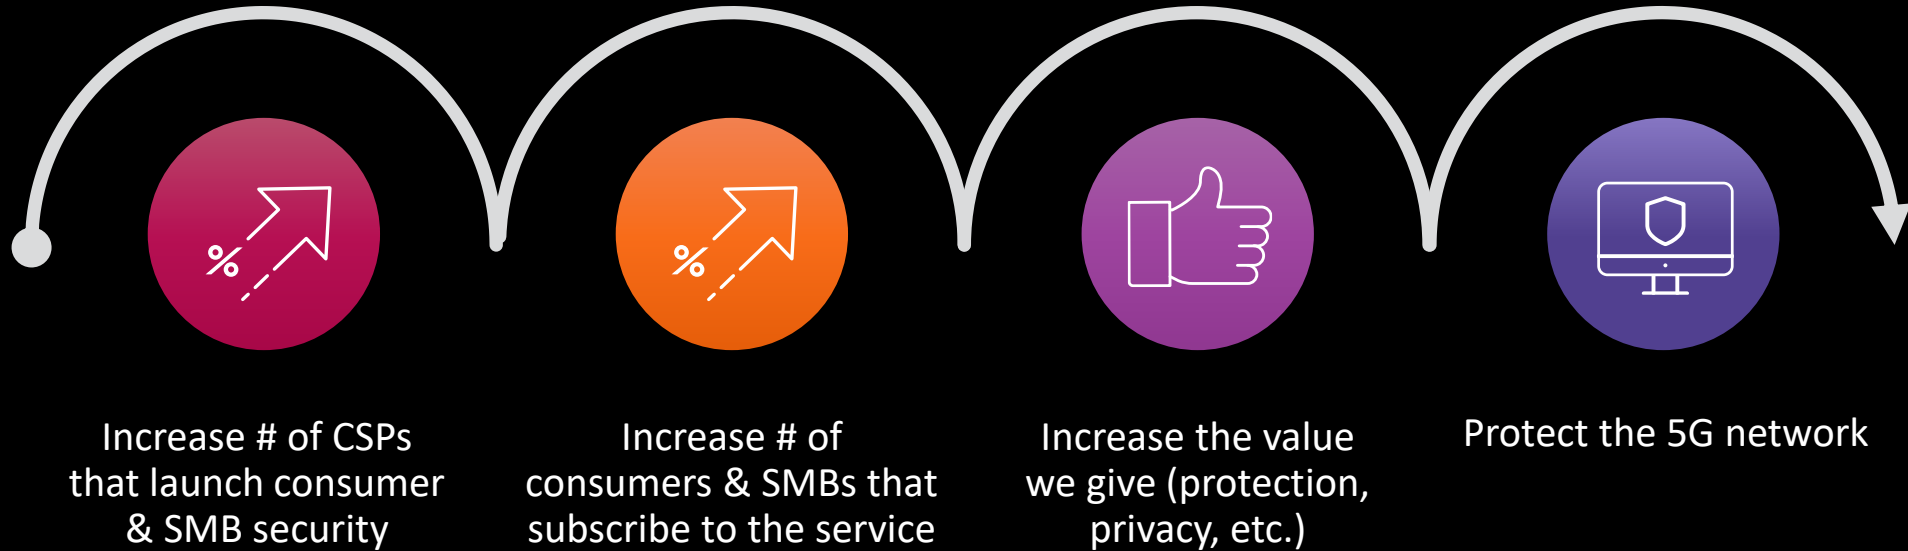

**Steve Szabo**  
VP Business Products, Verizon

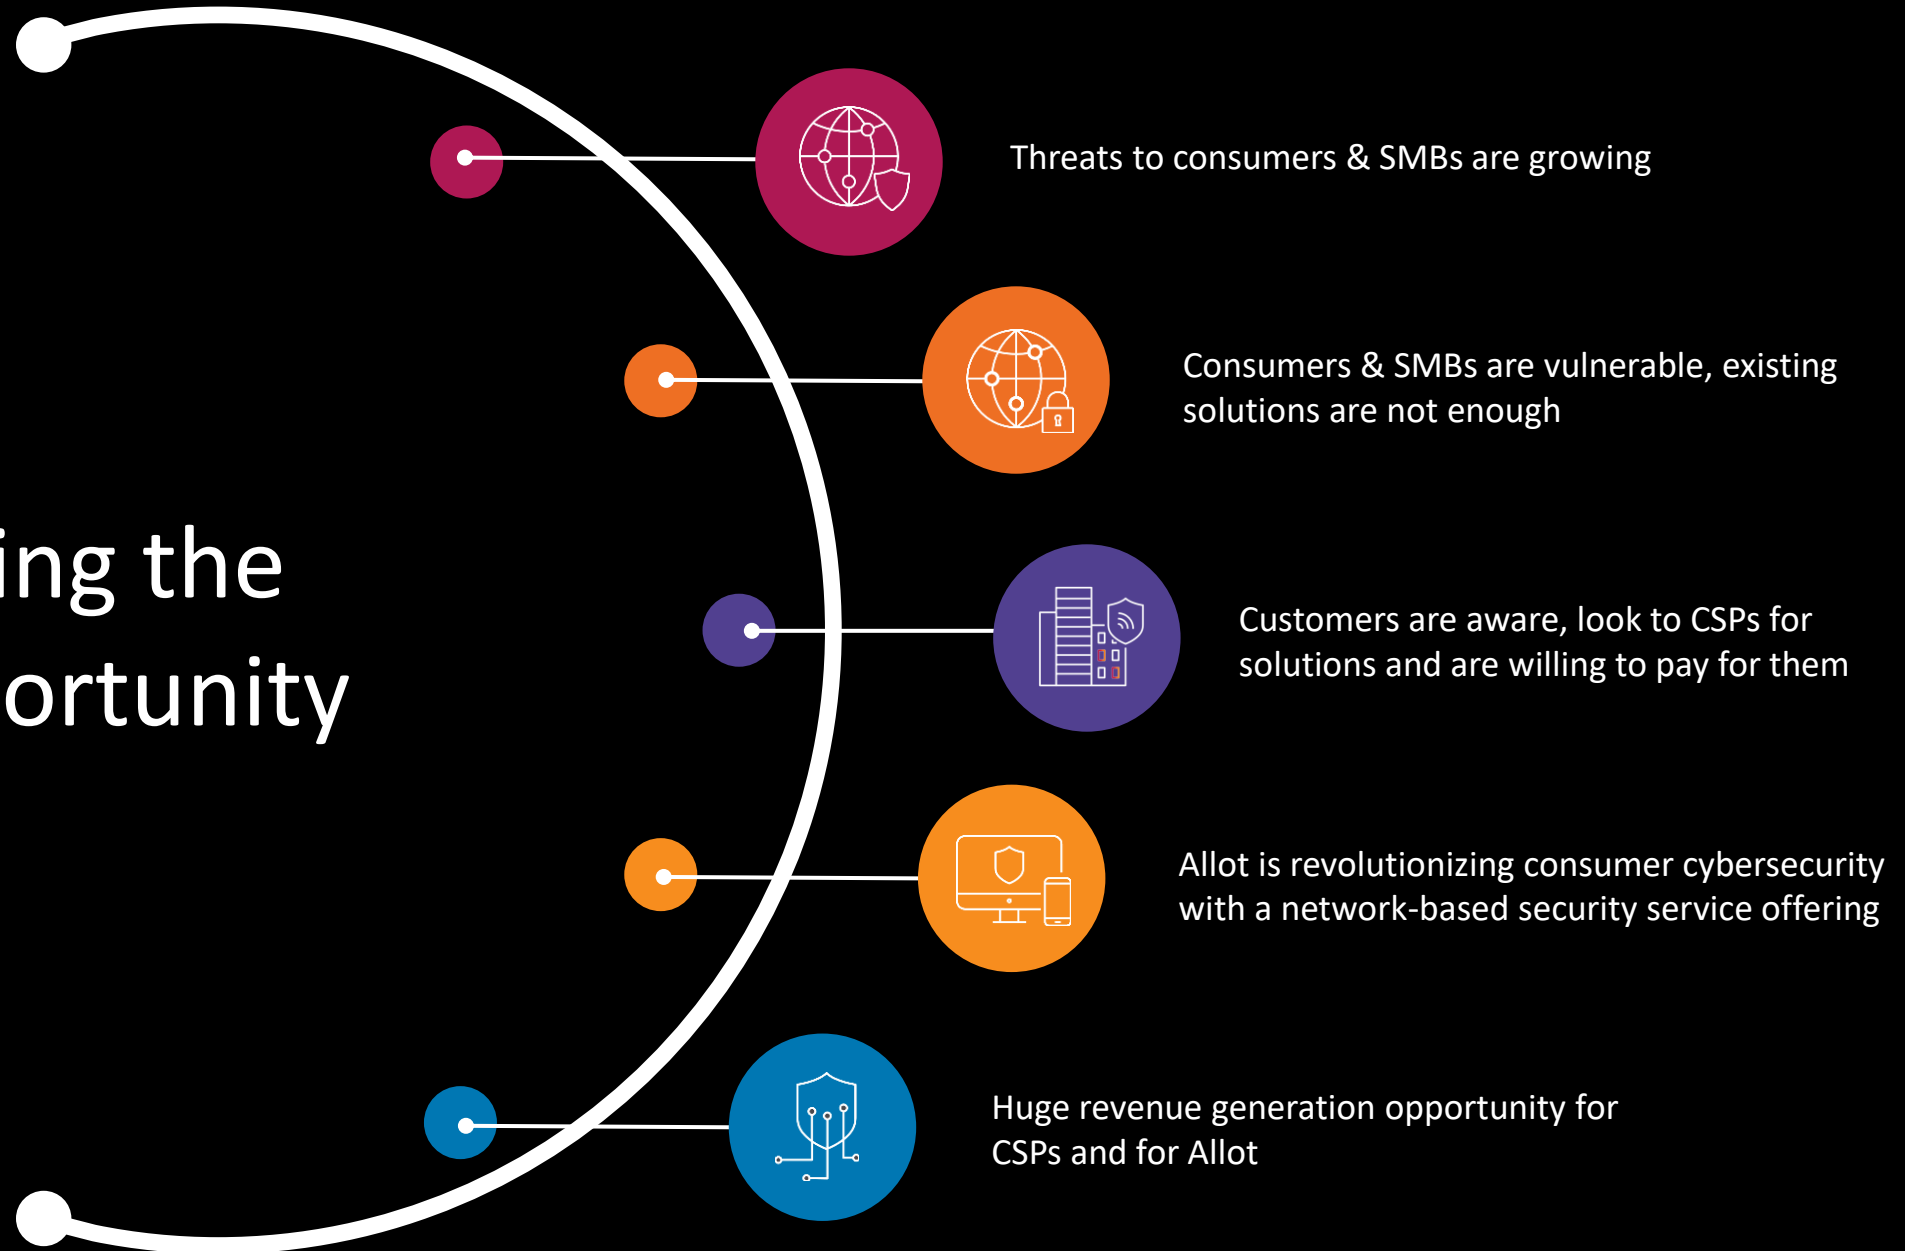

# Positioned for Growth
