Revolutionizing Consumer Cybersecurity

May 2022

(NASDAQ & TASE: ALLT)

Forward Looking Statements

This presentation contains forward-looking statements, which express the current beliefs and expectations of Company management. Such statements involve a number of known and unknown risks and uncertainties that could cause our future results, performance or achievements to differ significantly from the results, performance or achievements set forth in such forward-looking statements. Important factors that could cause or contribute to such differences include risks relating to: our ability to compete successfully with other companies offering competing technologies; the loss of one or more significant customers; the impact of government regulation on demand for our products; our failure to increase the functionality and features of our products; our ability to keep pace with advances in technology and to add new features and value-added services; the failure of our products adversely impacting customers' networks; managing lengthy sales cycles; greater operational risk associated with large projects; our dependence on third party channel partners for a material portion of our revenues; our failure to comply with regulatory requirements; our dependence on traffic management systems and network management application suites for the substantial majority of our revenues; the loss of rights to use third-party solutions integrated into our products; undetected errors in our products; our dependence on a single third-party subcontractor for a significant portion of our products; and other factors discussed under the heading "Risk Factors" in the Company's annual report on Form 20-F filed with the Securities and Exchange Commission. Forward-looking statements in this release are made pursuant to the safe harbor provisions contained in the Private Securities Litigation Reform Act of 1995. These forward-looking statements are made only as of the date hereof, and the Company undertakes no obligation to update or revise the forward-looking statements, whether as a result of new information, future events or otherwise.

Allot Overview

MARKET

Communication Service Providers (CSPs)

CUSTOMER BASE

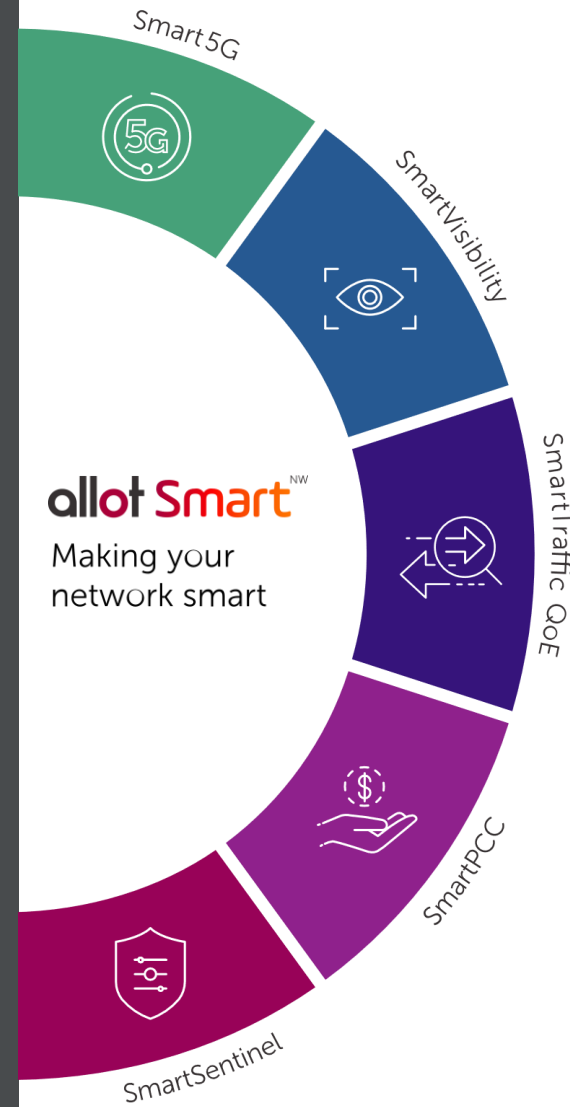

- Hundreds of CSPs globally
- Tier-1 operators

COMPANY HIGHLIGHTS

- ALLT (NASDAQ, TASE)
- 2021 revenue: \$146M
- 2021 Cybersecurity revenues: \$40M
- 2017-2021 revenue growth CAGR: 15%

PROVEN MANAGEMENT TEAM

Decades of experience in CSPs and Cybersecurity

Allot Smart Technology Heritage

- Deployed with hundreds of CSPs worldwide
- Telco grade solutions
 - High Throughput
 - Multitenancy
 - Quality
- 5G, cloud native and Virtual
- AI technology

Allot Secure CSP Customers

More than 20 million global subscribers protected
Tier-1 operators trust Allot

The Consumer & SMB Cybersecurity Challenge

Consumer & SMB Cyberthreats Exponentially Growing

- Border between office and work has blurred
- COVID accelerated this change
- 5G will accelerate it further

Increase of Allot Blocked Phishing Attacks in Europe in 2021

Security Apps Don't Protect the Mass Market

Consumers don't want to implement security apps on all their devices

Up to 5% of consumers actually download security apps

Security apps do not solve the problem

Consumers and SMBs cannot be their Own CISO!

* Based on conversations with CSPs

The opportunity for telecom providers to offer a simple, clear package of cybersecurity protections for homes and families appears significant

TAG Cyber, March 2022

The Opportunity

Consumers are Aware of Threats and Expect CSPs to Provide Solution

70% of consumers expect the CSP to provide a security solution to protect them from malware attacks

68% of US consumers worry about being a victim of identity theft

63% of US consumers worry about unauthorized access into their bank accounts

Based on survey of 4,000 global participants in Consumer Security Survey, conducted by Coleman Parkes Research, London, April 2022

US Consumers are Willing to Pay to be Protected

MOBILE USERS

90% of US consumers are willing to pay for a security application that protects all their mobile devices

63% minimum of \$2 a month

38% minimum of \$4 a month

FIXED BROADBAND USERS

93% Of US consumers are willing to pay for a security application that protects their broadband connections

76% excess of \$3 a month

46% excess of \$5 a month

Based on survey of 4,000 global participants in Consumer Security Survey, conducted by Coleman Parkes Research, London, April 2022

CSPs Well Positioned to Provide Security Services

Sole provider of access to the network.

Capable of blocking attacks before they reach the customer

Multiple touch points with customers: trusted brand, billing, frequent interactions

Network-Based Cybersecurity is the “Next Big Thing” for CSPs

Value #1

Brand
recognition

Value #2

New
revenues

Value #3

Customer loyalty:
Churn reduction

F A A N G c a n ' t d o t h i s .

CSPs will be
Consumer & SMB
Cybersecurity Heroes

Allot Revolutionizing Consumer & SMB Cybersecurity

The Allot Secure Solution

Allot Secure

Protecting consumers from threats/crime on the network

- Any threat
- Anywhere
- Any device

Allot Secure 360

The only company to offer a full unified "security blanket"

Allot Cloud

- Threat Intelligence
- Web Categorization
- Device Fingerprinting

Allot Secure Management

- One seamless security experience
- Subscriber Oriented

On-Net : Zero touch onboarding

No need to download / install

Off-Net

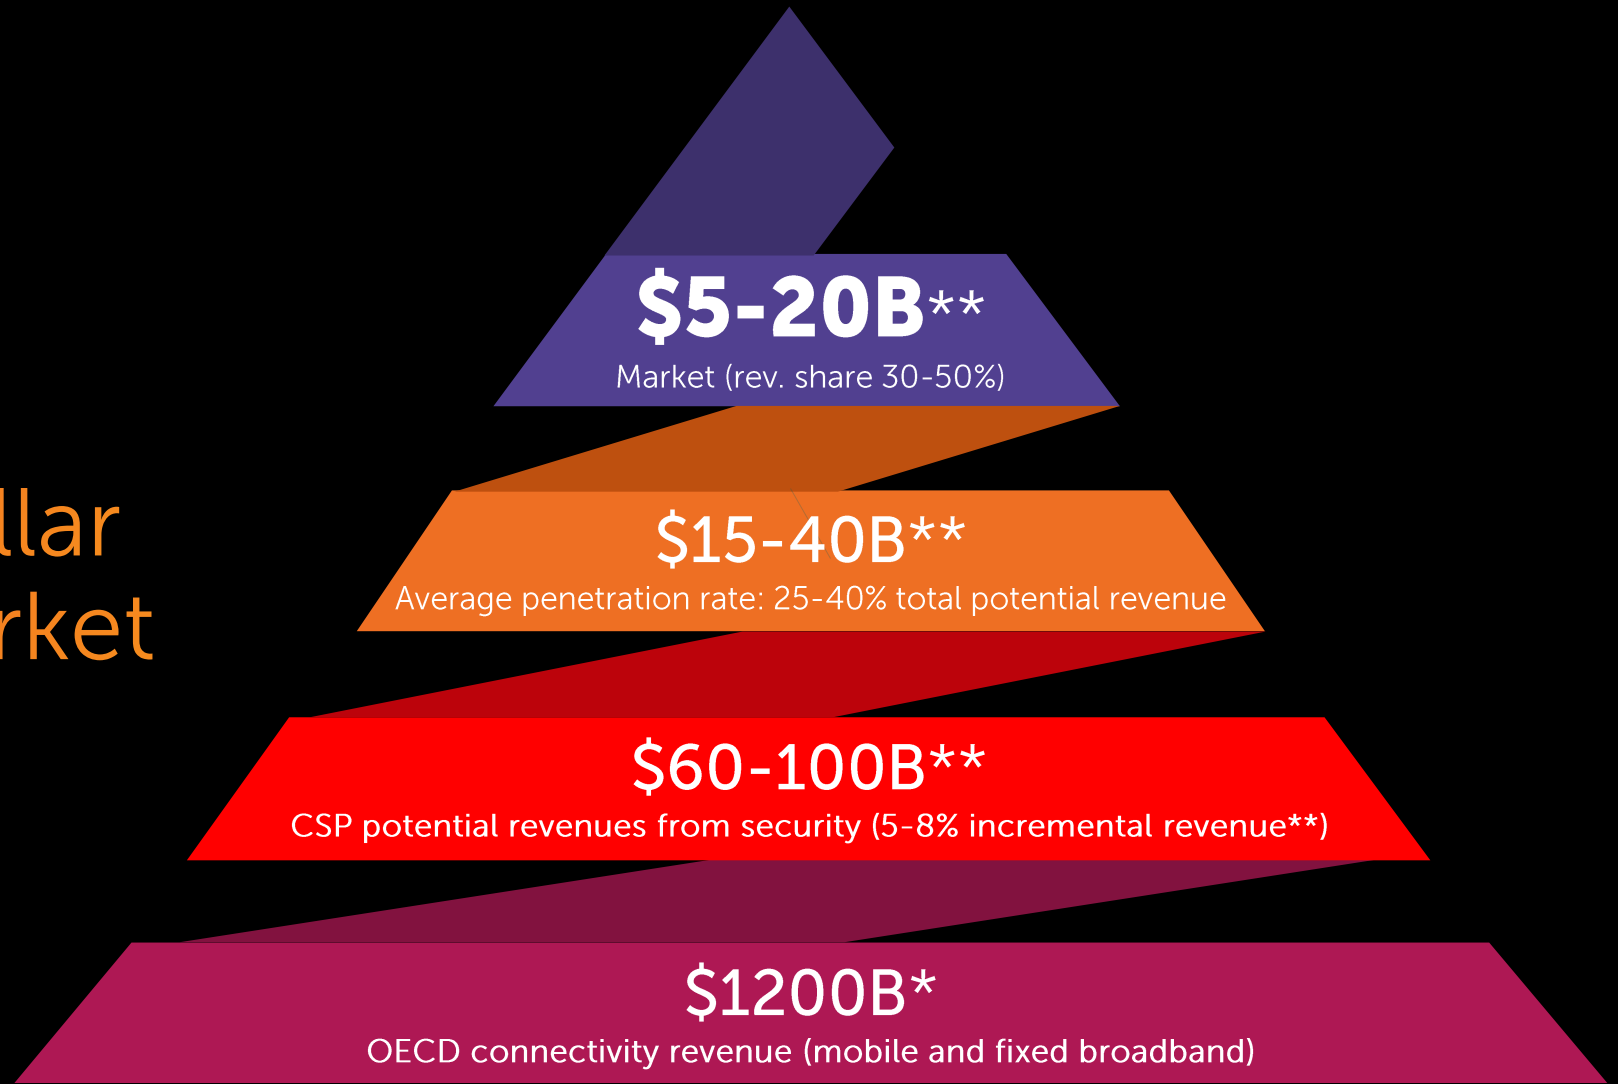

App per device

The Economics

Multi-Billion Dollar Addressable Market

Hypothetical CSP Example - SafeTelCo

- Assumptions**

- 5M mobile applicable subs (TAM)
- \$20/month ARPU

- SECaaS Pricing:**

- \$1/month for security (5%)

- MAR Calculation*:**

- Allot rev-share 33%
- MAR** = \$20M (5M*\$4)
- (\$1*12*33%=\$4/sub/year)

- Maximum Penetration:**

25%, 3 years after launch

*Assuming a consumer base of 5 million mobile subscribers each paying \$1 per month for Allot-provided security services and a 33% revenue share in favor of Allot, Allot would earn \$20 million in revenues annually, or \$4 per subscriber annually.

**MAR (maximum annual revenue potential of concluded transactions) was estimated by Allot upon transaction signature and constitutes an approximation of the theoretical annual revenues Allot would receive if 100% of the applicable customer's segments only subscribers, as estimated by Allot, signed up for the service.

SECaaS Revenues

*MAR (maximum annual revenue potential of concluded transactions) was estimated by Allot upon transaction signature and constitutes an approximation of the theoretical annual revenues Allot would receive if 100% of the customer's subscribers, as estimated by Allot, signed up for the service. Starting 2022, the MAR calculation is based on annual revenues Allot would receive if 100% of the applicable customer's segments only subscribers, as estimated by Allot, signed up for the service
