Allot Communications Service Gateway Virtual Edition Powers Amdocs Policy Gateway Solution

First deployment of new virtualized solution is underway, solution is deployable over the cloud and in virtualized environments

HOD HASHARON, Israel, November 7, 2016 /PRNewswire/ --

[Allot Communications Ltd.](#) (NASDAQ, TASE: ALLT), a leading provider of security and monetization solutions that enable service providers to protect and personalize the digital experience, has partnered with [Amdocs](#), the market leader in customer experience software solutions and services for the world's largest communications, entertainment and media service providers. Allot will supply the underlying [traffic detection function \(TDF\)](#) for [Amdocs Policy Gateway \(APG\)](#) solution. Within the solution, [Allot Service Gateway Virtual Edition](#) operates as a virtual TDF, supplying granular application visibility, metering and policy enforcement to Amdocs Policy Gateway. The result is an end-to-end, PCRF-PCEF solution that is deployable over the cloud and in virtualized environments.

The integration between Allot and Amdocs allows service providers to take advantage of a turnkey Policy Control and Enforcement solution that is flexible, agile, and deployable in any network environment. Specifically, communications service providers (CSPs) will be able to:

- | Define all available data services and parameters used to meter usage;
- | Create subscriber plans based on available services and assign metering limits;
- | Create rules to combine subscriber entitlements with dynamic influencers;
- | Use automated test tools to create/modify use cases and thresholds to determine the policy rule; and
- | Deploy new services in the field with no on-site coding.

"Accurate traffic detection and visibility is absolutely essential for the provisioning, enforcement and charging of any data service, especially application-based services and IoT connectivity models that are constantly evolving," said Yossi Abraham, VP Global Business Development & GM of North America at Allot Communications. "The tight integration we have achieved between Allot's vTDF and Amdocs Policy Gateway will make it easier and cost-efficient for CSPs to roll out competitive and innovative data services and rapidly update or modify existing use cases, keeping up with the evolving demands of their customers."

Amdocs' Forward-Looking Statement

This press release includes information that constitutes forward-looking statements made pursuant to the safe harbor provision of the Private Securities Litigation Reform Act of 1995, including statements about Amdocs' growth and business results in future quarters. Although we believe the expectations reflected in such forward-looking statements are based upon reasonable assumptions, we can give no assurance that our expectations will be obtained or that any deviations will not be material. Such statements involve risks and uncertainties that may cause future results to differ from those anticipated. These risks include, but are not limited to, the effects of general economic conditions, Amdocs' ability to grow in the business markets that it serves, Amdocs' ability to successfully integrate acquired businesses, adverse effects of market competition, rapid technological shifts that may render the Company's products and services obsolete, potential loss of a major customer, our ability to develop long-term relationships with our customers, and risks associated with operating businesses in the international market. Amdocs may elect to update these forward-looking statements at some point in the future; however, the Company specifically disclaims any obligation to do so. These and other risks are discussed at greater length in the Company's filings with the Securities and Exchange Commission, including in our Annual Report on Form 20-F for the fiscal year ended September 30, 2015 filed on December 10, 2015 and our quarterly 6-K forms furnished on February 16, May 17 and August 8, 2016.

About Allot Communications

Allot Communications Ltd. (NASDAQ, TASE: ALLT) is a leading provider of security and monetization solutions that enable service providers to protect and personalize the digital experience. Allot's flexible and highly scalable service delivery framework leverages the intelligence in data networks enabling service providers to get closer to their customers; to safeguard network assets and users; and to accelerate time-to-revenue for value-added services. We employ innovative technology, proven know-how and a collaborative approach to provide the right solution for every network environment. Allot solutions are currently deployed at 5 of the top 10 global mobile operators and in thousands of CSP and enterprise networks worldwide. For more information, please visit <http://www.allot.com>

Safe Harbor Statement

This release contains forward-looking statements, which express the current beliefs and expectations of Company management. Such statements involve a number of known and unknown risks and uncertainties that could cause our future results, performance or achievements to differ significantly from the results, performance or achievements set forth in such forward-looking statements. Important factors that could cause or contribute to such differences include risks relating to: our ability to compete successfully with other companies offering competing technologies; the loss of one or more significant customers; consolidation of, and strategic alliances by, our competitors, government regulation; the timing of completion of key project milestones which impact the timing of our revenue recognition; lower demand for key value-added services; our ability to keep pace with advances in technology and to add new features and value-added services; managing lengthy sales cycles; operational risks associated with large projects; our dependence on third party channel partners for a material portion of our revenues; and other factors discussed under the heading "Risk Factors" in the Company's annual report on Form 20-F filed with the Securities and Exchange Commission. Forward-looking statements in this release are made pursuant to the safe harbor provisions contained in the Private Securities Litigation Reform Act of 1995. These forward-looking statements are made only as of the date hereof, and the company undertakes no obligation to update or revise the forward-looking statements, whether as a result of new information, future events or otherwise.
