

Revolutionizing Consumer Cybersecurity

—
November 2023

(NASDAQ & TASE: ALLT)

Forward Looking Statements

This presentation contains forward-looking statements, which express the current beliefs and expectations of Company management. Such statements involve a number of known and unknown risks and uncertainties that could cause our future results, performance or achievements to differ significantly from the results, performance or achievements set forth in such forward-looking statements. Important factors that could cause or contribute to such differences include risks relating to: our ability to compete successfully with other companies offering competing technologies; the loss of one or more significant customers; the impact of government regulation on demand for our products; our failure to increase the functionality and features of our products; our ability to keep pace with advances in technology and to add new features and value-added services; the failure of our products adversely impacting customers' networks; managing lengthy sales cycles; greater operational risk associated with large projects; our dependence on third party channel partners for a material portion of our revenues; our failure to comply with regulatory requirements; our dependence on traffic management systems and network management application suites for the substantial majority of our revenues; the loss of rights to use third-party solutions integrated into our products; undetected errors in our products; our dependence on a single third-party subcontractor for a significant portion of our products; and other factors discussed under the heading "Risk Factors" in the Company's annual report on Form 20-F filed with the Securities and Exchange Commission. Forward-looking statements in this release are made pursuant to the safe harbor provisions contained in the Private Securities Litigation Reform Act of 1995. These forward-looking statements are made only as of the date hereof, and the Company undertakes no obligation to update or revise the forward-looking statements, whether as a result of new information, future events or otherwise.

Allot Overview

MARKET

Communication Service Providers (CSPs)

CUSTOMER BASE

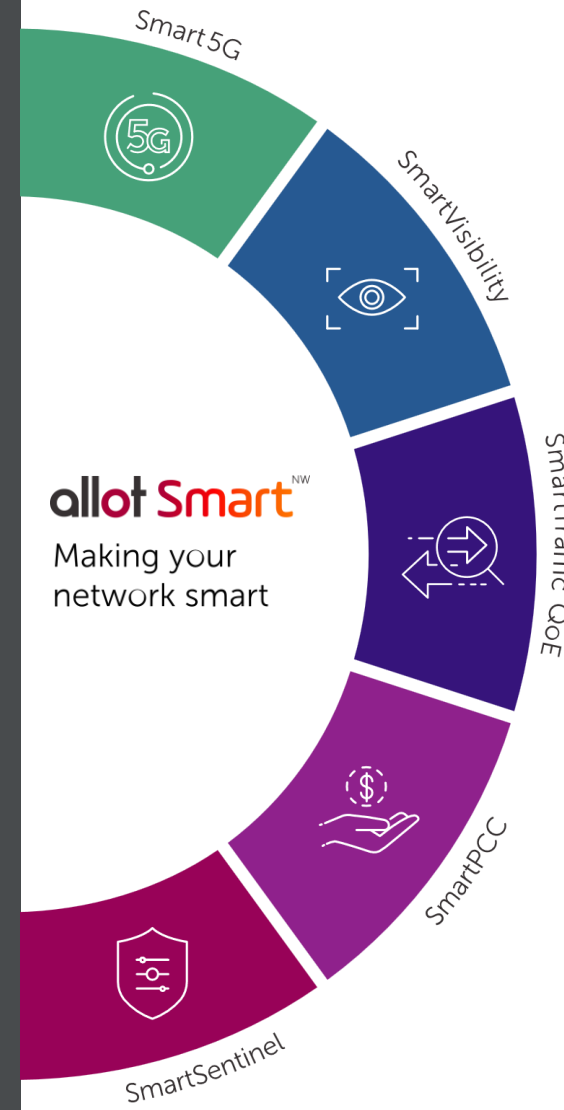

- Hundreds of CSPs globally
- Tier-1 operators

COMPANY HIGHLIGHTS

- ALLT (NASDAQ, TASE)
- 2022 revenue: \$123M

PROVEN MANAGEMENT TEAM

Decades of experience in CSPs and Cybersecurity

Allot Smart Technology Heritage

- Deployed with hundreds of CSPs worldwide
- Telco grade solutions
 - High Throughput
 - Multitenancy
 - Quality
- 5G, cloud native and Virtual
- AI technology

Allot Secure CSP Customers

Many millions of global subscribers protected
Tier-1 operators trust Allot

The Consumer & SMB Cybersecurity Challenge

Consumer & SMB Cyberthreats Exponentially Growing

- Border between office and work has blurred
- COVID accelerated this change
- 5G will accelerate it further

Increase of Allot Blocked Phishing Attacks in Europe H2 2022-H1 2023

Security Apps Don't Protect the Mass Market

Consumers don't want to implement security apps on all their devices

Up to 5% of consumers actually download security apps

Security apps do not solve the problem

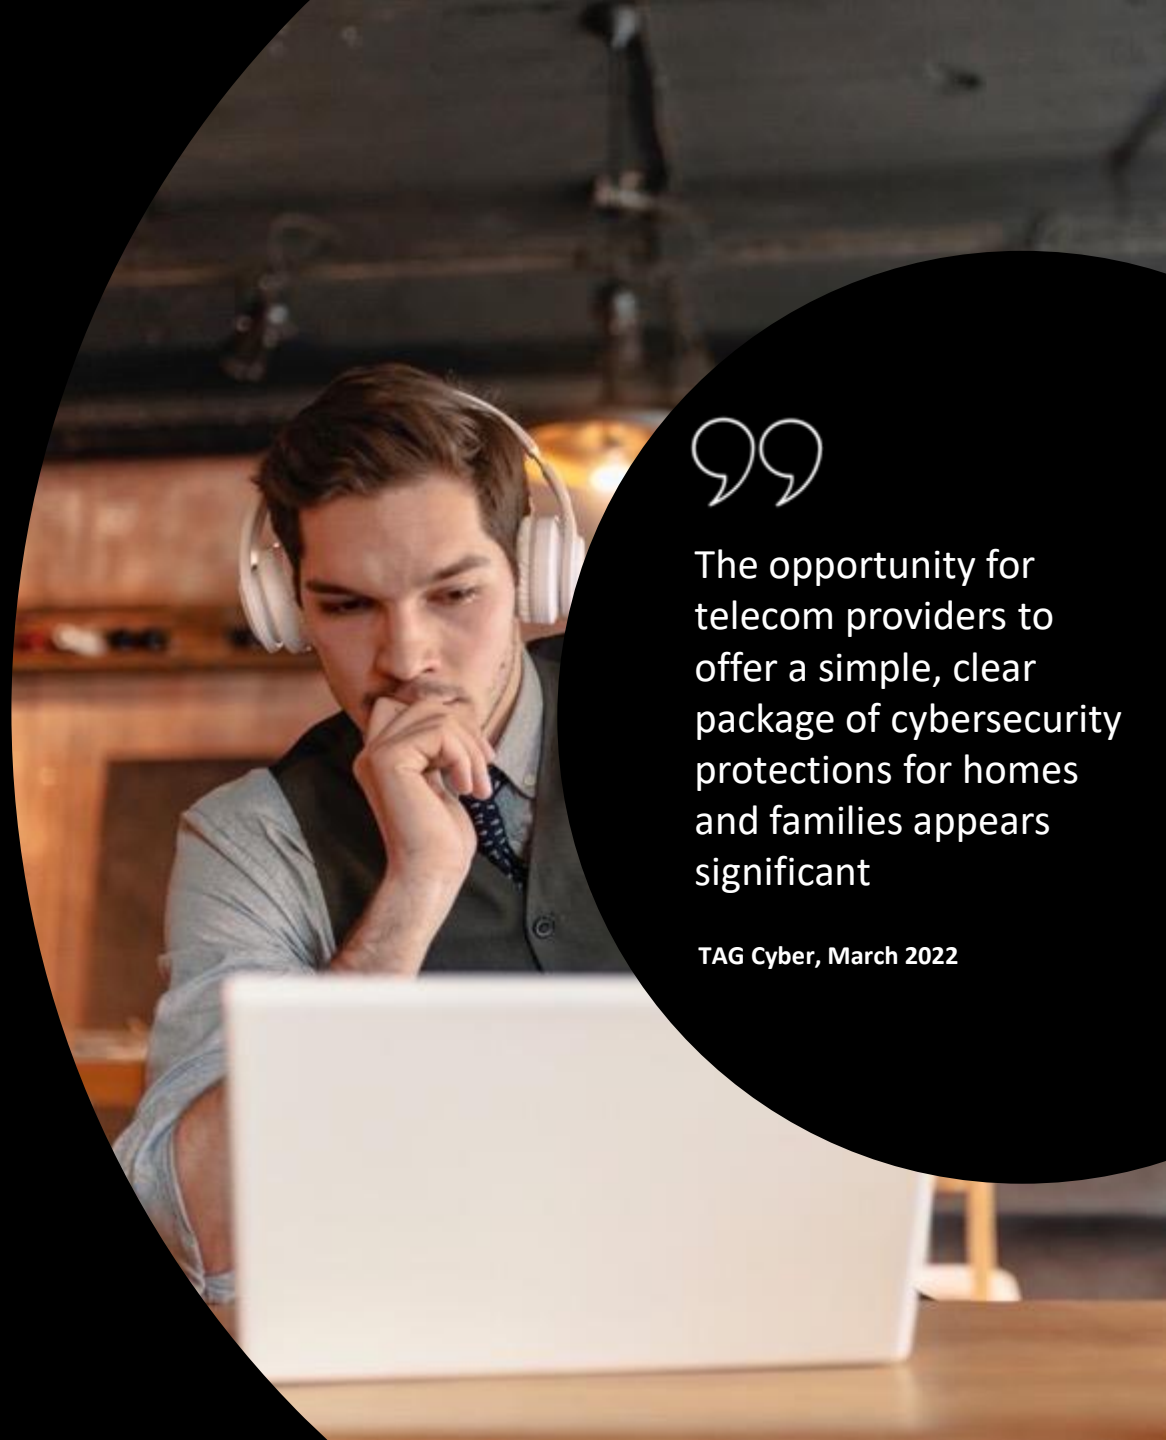

Consumers and SMBs cannot be their Own CISO!

* Based on conversations with CSPs

The opportunity for telecom providers to offer a simple, clear package of cybersecurity protections for homes and families appears significant

TAG Cyber, March 2022

The Opportunity

Consumers are Aware of Threats and Expect CSPs to Provide Solutions

70% of consumers expect the CSP to provide a security solution to protect them from malware attacks

68% of US consumers worry about being a victim of identity theft

63% of US consumers worry about unauthorized access into their bank accounts

Based on survey of 8,000 global participants in Consumer Security Survey, conducted by Coleman Parkes Research, London, January 2022

US Consumers are Willing to Pay to be Protected

MOBILE USERS

90% of US consumers are willing to pay for a security application that protects all their mobile devices

63% minimum of \$2 a month

38% minimum of \$4 a month

FIXED BROADBAND USERS

93% Of US consumers are willing to pay for a security application that protects their broadband connections

76% excess of \$3 a month

46% excess of \$5 a month

Based on survey of 4,000 global participants in Consumer Security Survey, conducted by Coleman Parkes Research, London, April 2020

CSPs Well Positioned to Provide Security Services

Sole provider of access to the network.

Capable of blocking attacks before they reach the customer

Multiple touch points with customers: trusted brand, billing, frequent interactions

Network-Based Cybersecurity is the “Next Big Differentiator” for CSPs

Coverage, Speed, Quality
are commoditized

Value #1

Brand
recognition

Value #2

New
revenues

Value #3

Churn
reduction

The Allot Secure Solution

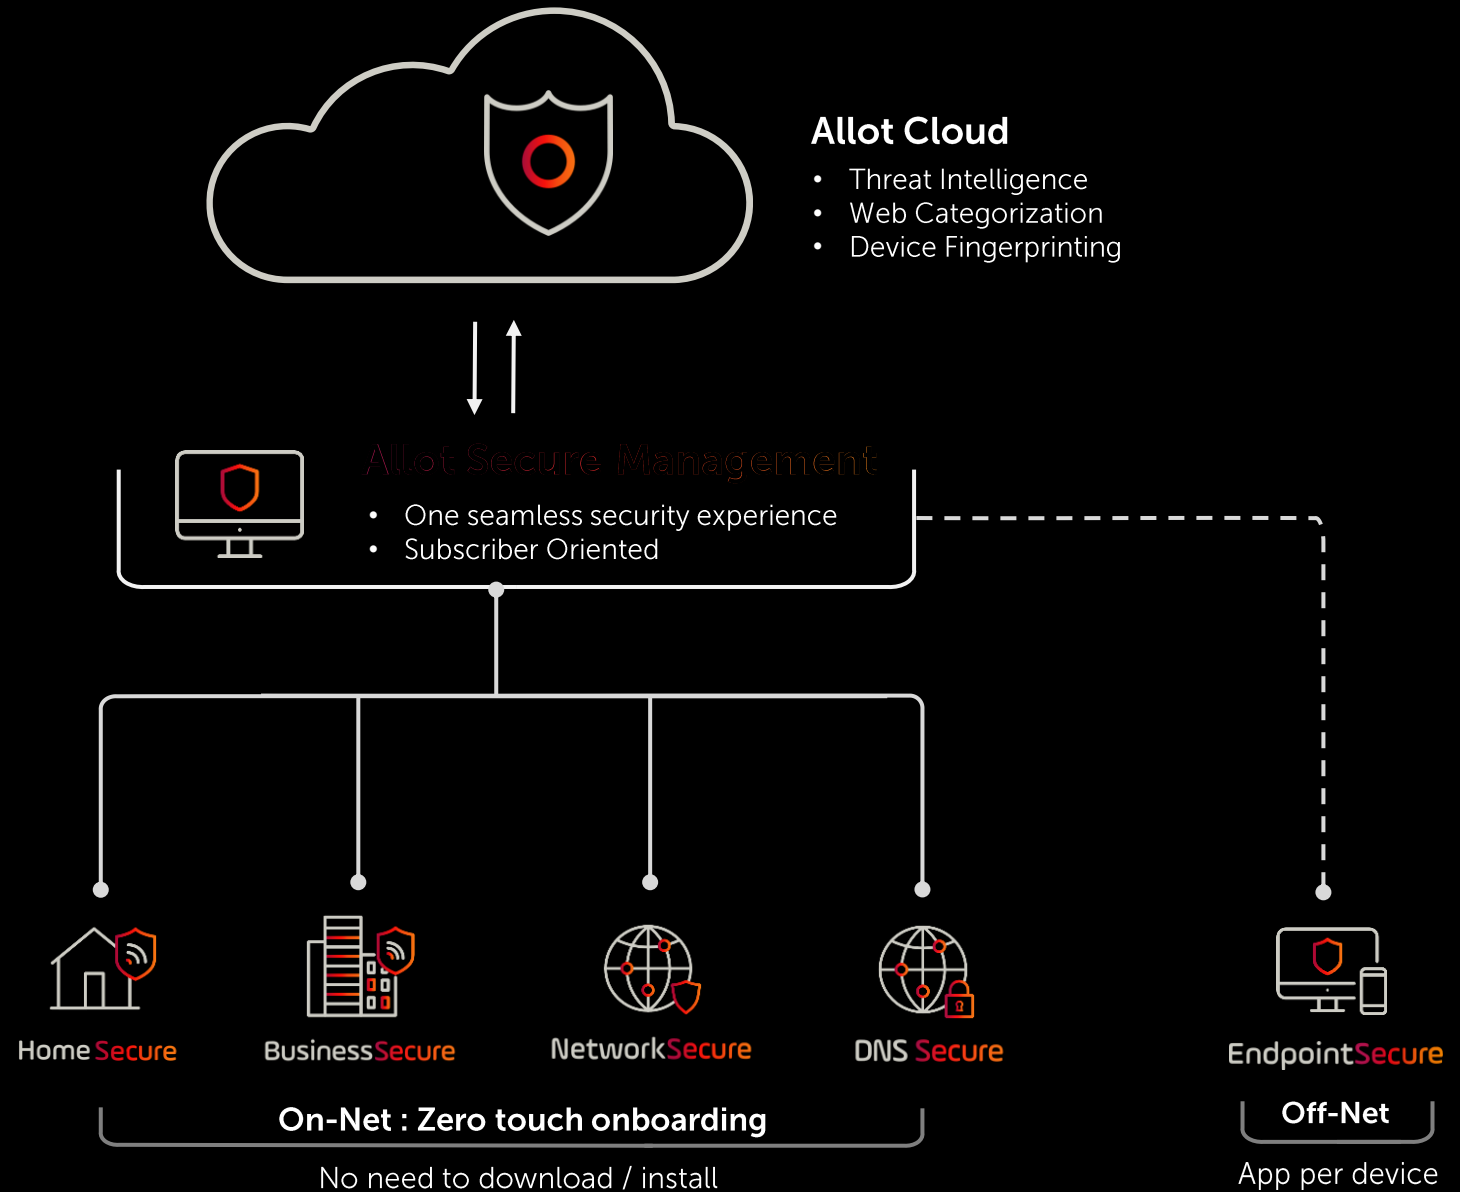

Allot Secure

Protecting consumers from threats/crime on the network

- Any threat
- Anywhere
- Any device

Allot Secure 360

The only company to offer a full unified "security blanket"

The Economics

Customers willing to pay 5% to 20% of price plan for Cybersecurity

Consumer

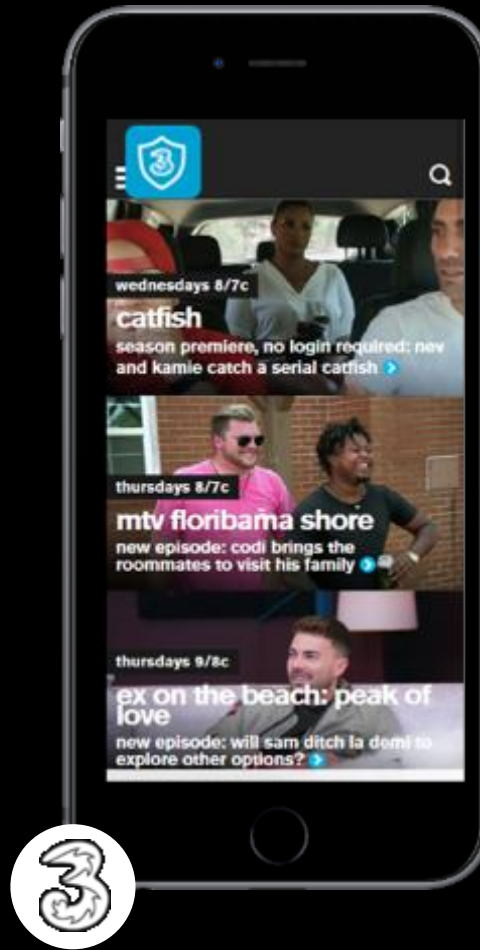

SMB

0.99€/m

~5% of average price plan

"...Vodafone Secure Net is a unique service that protects you simply and safely on your Vodafone connected devices."

1.5€/m

~8% of average price plan

"...The Drei Internet Protection protects Drei customers regardless of device..."

Telefonica SMB

10€/m

~20% of average price plan

"...Browse with complete peace of mind and configure the service according to your business needs"

\$10-20/m

Two price plans

"...nothing to install or configure. Simple, low cost and effective solutions to help protect your business from cyber threats"

Extraordinary Take Up Rate by Consumers & SMBs*
