Exhibit Description

99.1 Press Release Announcing Financial Results Dated October 30, 2012

Allot Communications Reports Non-GAAP 40% Revenue Rise and 50% Net Profit Growth for Third Quarter of 2012

Key highlights:

- Third quarter non-GAAP revenues increased to \$28.0 million, a 40% increase over the third quarter of 2011 and 6% increase over the previous quarter

- Third quarter non-GAAP net profit reaches \$5.1 million, a 50% increase over the third quarter of 2011; non-GAAP EPS of \$0.15

- Cash, cash equivalents and marketable securities totaled \$144.1 million after Oversi acquisition closing; positive cash flow from operations in the third quarter

Hod Hasharon, Israel – October 30, 2012 – Allot Communications Ltd. (NASDAQ: ALLT), a leading supplier of service optimization and revenue generation solutions for fixed and mobile data worldwide, today announced continued growth in sales during the third quarter of 2012.

On a non-GAAP basis, total revenues for the third quarter of 2012 reached \$28.0 million, a 40% increase from the \$20.1 million of revenues reported for the third quarter of 2011, and a 6% increase from the \$26.4 million of revenues reported for the second quarter of 2012. On a GAAP basis, net profit for the third quarter of 2012 was \$2.4 million, or \$0.07 per basic and diluted share. This compares with net profit of \$2.1 million, or \$0.09 per basic share and \$0.08 per diluted share, in the third quarter of 2011, and net profit of \$2.7 million, or \$0.08 per basic and diluted share, in the second quarter of 2012.

On a non-GAAP basis, net profit for the third quarter of 2012 totaled \$5.1 million, or \$0.16 per basic share and \$0.15 per diluted share, compared with non-GAAP net profit of \$3.4 million, or \$0.14 per basic share and \$0.13 per diluted share, for the third quarter of 2011, and non-GAAP net profit \$5.0 million, or \$0.16 per basic share and \$0.15 per diluted share, for the second quarter of 2012. The results also reflect operating expenses resulting from the Oversi acquisition, which closed on September 4, 2012.

Non-GAAP revenues are defined as GAAP revenues adjusted for impact of the fair value adjustment to acquired deferred revenue related to purchase accounting. Management believes the adjustment is useful to investors as a measure of our operating performance following the acquisition.

Non-GAAP net profit is defined as GAAP net profit after including deferred revenues related to the fair value adjustment resulting from purchase accounting and excluding stock based compensation expenses, amortization of acquisition related intangible assets, regulatory matters, acquisition related expenses and compensation expenses related to the acquisitions.

These non-GAAP measures should be considered in addition to, and not as a substitute for, comparable GAAP measures. The non-GAAP results and a full reconciliation between GAAP and non-GAAP results are provided in the accompanying Tables 2 and 3. The Company provides these non-GAAP financial measures because it believes that they present a better measure of the Company's core business and management uses the non-GAAP measures internally to evaluate the Company's ongoing performance. Accordingly, the Company believes that they are useful to investors in enhancing an understanding of the Company's operating performance.

"Our continued growth is being driven by strong market fundamentals, namely the continued dramatic growth in data over mobile and fixed line networks," commented Rami Hadar, Allot Communications' President and Chief Executive Officer. "The Allot Service Gateway offers service providers superior performance along with the broadest range of value-added services available on the market today, and services, particularly our video suite, have been a significant differentiator for our customers. During the quarter we recognized revenue from a new Tier 1 mobile operator, as we predicted earlier in the year."

Recently, the Company achieved the following significant goals:

- · During the quarter, received large orders from 12 service providers, 2 of which represented new customers;
- 8 of the large orders came from mobile service providers, 2 of which were new customers;
- Recognized revenue from a new Tier 1 mobile operator during the quarter, one of two 10% customers for the quarter;
- · Announced closing the acquisition of Oversi on September 4, which provides Allot with a best-of-breed video caching solution; and
- Announced the receipt of a large order for the new Allot MediaSwift-E caching solution, which incorporates the caching technology from Oversi, from an existing multi-million dollar APAC fixed operator customer.

As of September 30, 2012, cash, cash equivalents, short term deposits and marketable securities totaled \$144.1 million, post-closing the Oversi acquisition, with no debt. The preliminary allocation of the purchase price for Oversi is based upon estimates and assumptions that are subject to change within the purchase price allocation period, which is generally one year from the acquisition date. The primary areas of the purchase price allocation that are not yet finalized relate to the measurement of certain assets and liabilities.
